and fact
cards!

National Geographic Little Kids magazine is designed to enhance your child's education, with activities to develop their skills in numeracy, literacy,

geography, science, communication, physical development, and personal, social and emotional development.

Why?

An orangutan with reddish-brown fur is hanging from a tree branch. Its arms are stretched out to the sides, holding onto two different branches. The background is a lush green forest.

Why do you think
orangutans have
long arms?

Their
arms are
longer than
their legs!

Would you
like to live in
the trees?

These apes live high up in trees.
Long, strong arms help them swing
from tree to tree in the rainforest.

Animal Arms

Let's look at some unusual arms!

How many arms can you count on this page?

LONG ARMS!

Gibbons' arms are for tree swinging, too! They are much longer than their legs.

WINGED ARMS!

Bats' arms and long fingers have wings stretched between them!

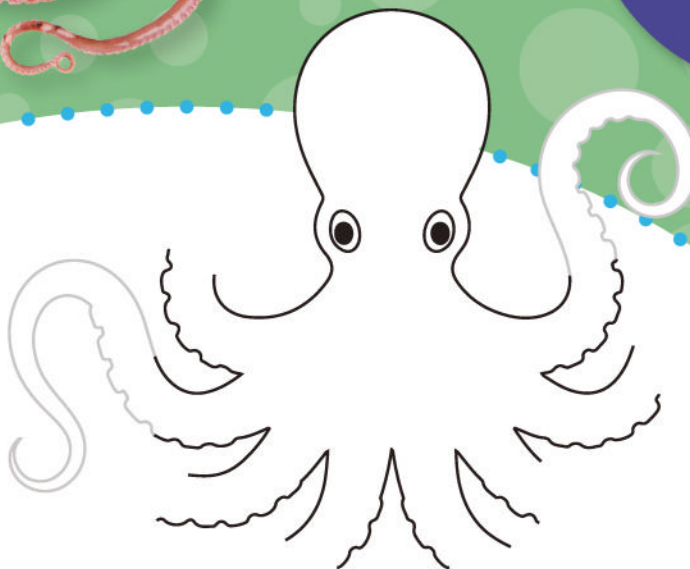

SHORT ARMS!

Kangaroos' arms are shorter than their legs. They use them for eating and boxing!

LOTS OF ARMS!

An octopus has eight arms. Each arm can taste, touch and grip.

Finish drawing eight arms on this octopus.

What are longer, your arms or legs?

NAMING

At the Farm

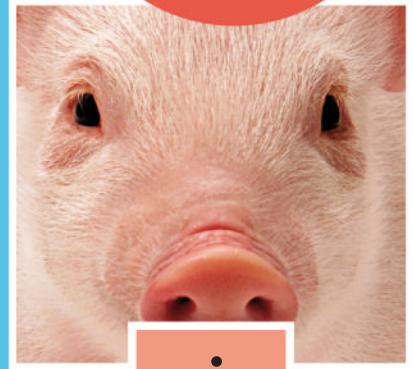

Can you name these things? What letters are missing?

__ow

__arrots

__ig

__unflower

__arn

__weetcorn

__orse

__ractor

__ockerel

Can you name some other things on a farm?

What Is Different?

**Look at each picture in the top row.
Spot the differences between it and the one below.**

**Find one
difference.**

**Find two
differences.**

**Find three
differences.**

That's Cool!

Meet the Honduran white bat.

Honduran white bats are about the size of a large marshmallow. They sort of look like one, too!

Say my name:
"hon-DUR-un"

These bats hide inside a 'tent' they make by folding over a big leaf with their teeth.

Little bats on a leaf!

These tiny bats live in rainforests in parts of the Caribbean.

Their noses stick straight up and might help them send out sounds.

Nose

Up to 12 bats
may huddle
together in
each leaf!

Sticker
page

Hide and Seek

These little bats are missing some of their buddies. Stick some more bats on each leaf to match the number in the circle.

Curl up
into a ball like
these teeny
bats.

2

3

How many
bats are
there in
total?

4

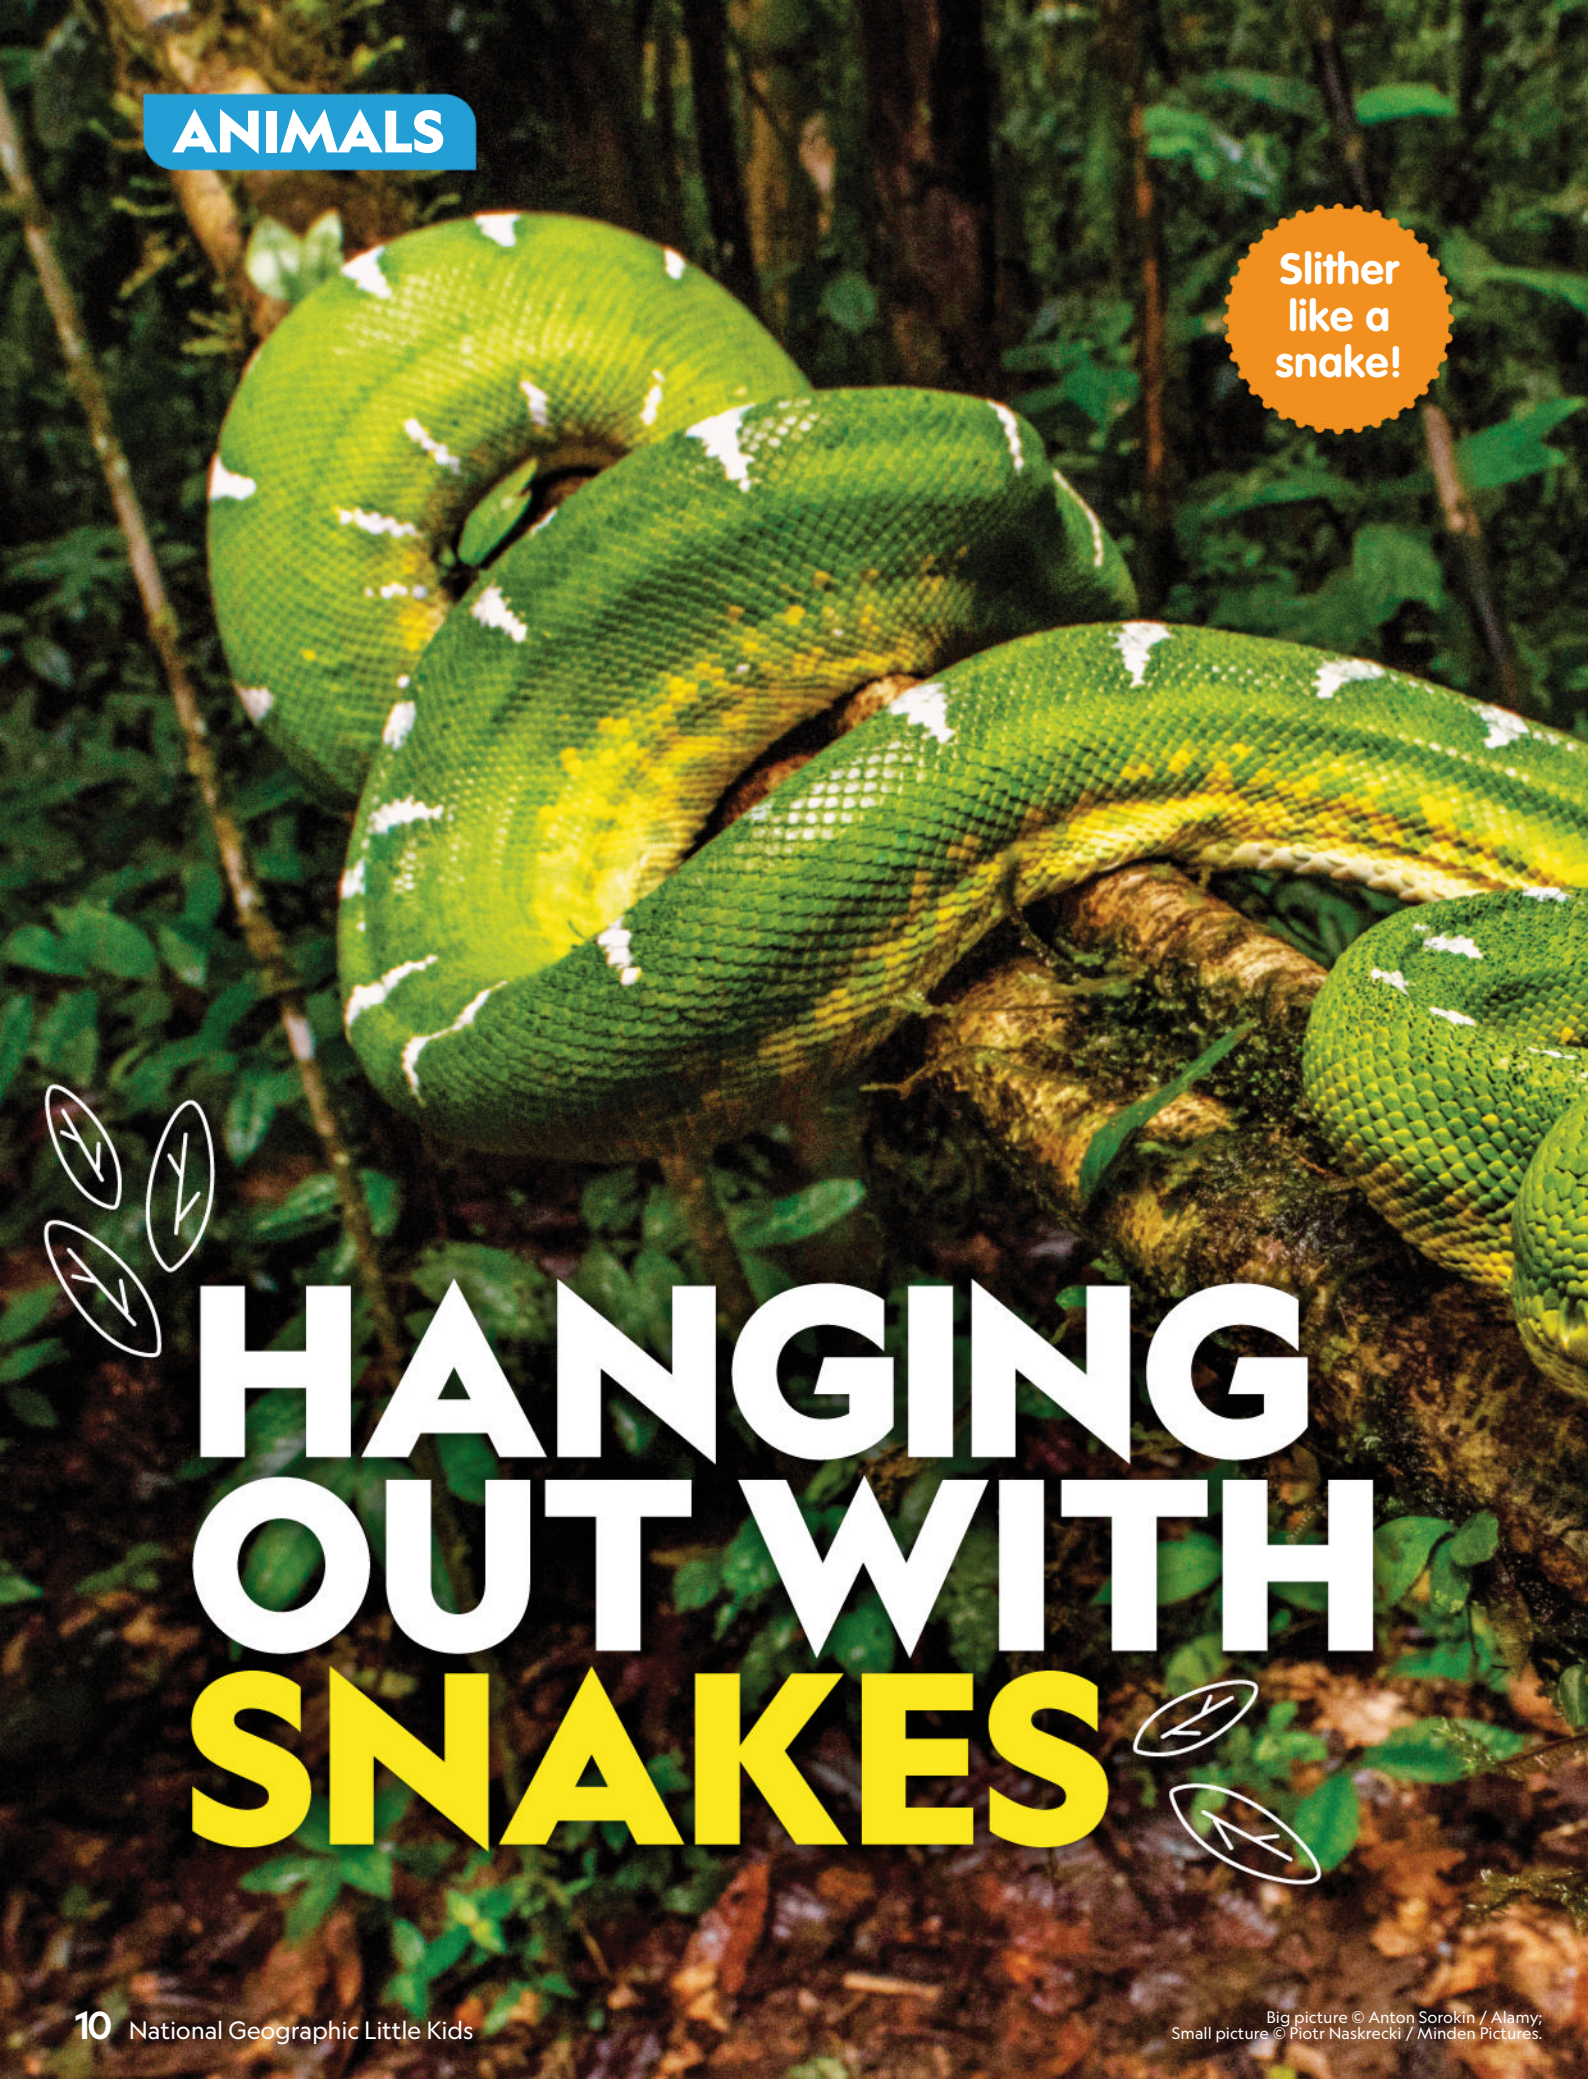

5

Can you
think of another
creature that
looks like
this bat?

All images © Adobe Stock.

ANIMALS

Slither
like a
snake!

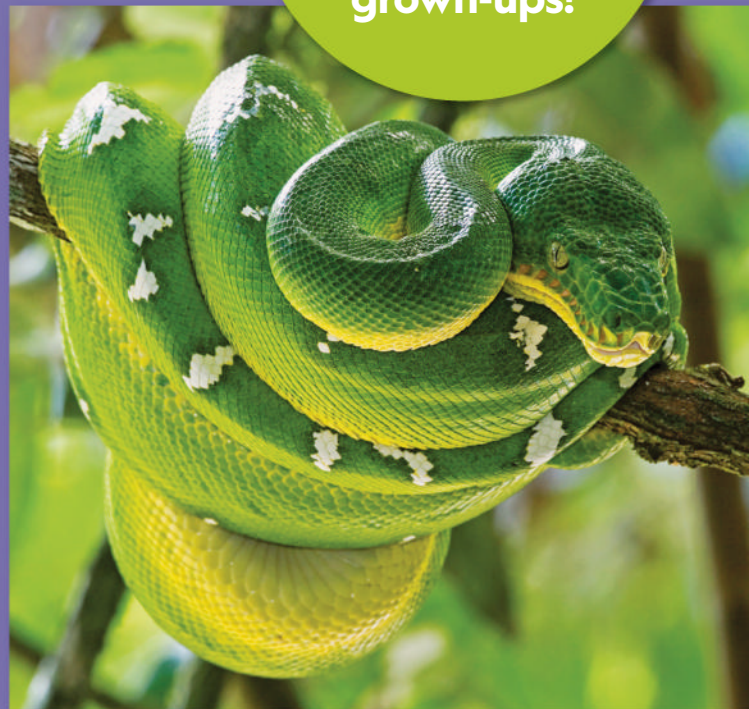

HANGING OUT WITH SNAKES

Emerald tree boas live in rainforest trees. They hardly ever move along the ground.

Can you name any other bright green creatures?

The snake slithers up and across branches. Its green colour helps this boa hide in the leaves.

If an emerald tree boa could stand on its tail, it would be taller than some grown-ups!

Sticker
page

Tail

Sticker
activity

Stick some
more squiggly
patterns on
this snake.

Adult

The boa's tail can
grip like a hand.
The boa hangs
from a branch and
waits for a yummy rat.

Then the snake grabs its prey with its big mouth and squeezes its body around the animal.

This snake finds prey by 'smelling' animals with its tongue.

Tongue

Flick your tongue in and out like a snake smelling the air!

Most snakes hatch from eggs. But emerald tree boas give birth to baby snakes.

Baby

Baby boas are orange, yellow or red. They turn green later.

Baby snakes must find their own food as soon as they are born in the trees. Then they can curl around a branch to sleep.

MATCHING

Sticker
page

What's on the

Fur, scales or other things might cover an animal's body. They help the animal stay warm or protect it from creatures that want to eat it.

Say each word in the list below. Use your finger to draw a line from the word to the type of animal that it matches.

Shiny

Fluffy

Spiky

Bumpy

Hard

Scaly

Hedgehog

Penguin chick

Sticker
activity

Hedgehogs
curl into a spiky
ball to stay safe.
Stick a curled-up
hedgehog
here!

Outside?

Beetle

Sticker
activity

Stick
another
beetle
on this
branch.

Fish

Terrapin

Toad

Look around
you. What can
you see that is
shiny? How
about hard?
Or fluffy?

These cats
live in sandy
deserts. Where
else can you
find sand?

Sand cats
have thick fur
between their toes
to protect their
feet from the
hot sand!

LITTLE SAND CATS

This wild animal looks like a pet cat. But a sand cat is even smaller than an adult kitty! Their home is in hot deserts.

Sand cats rest and sleep in underground homes called burrows. The cats are good diggers.

Burrow

Stick another sand cat poking out of the burrow!

Sticker activity

The sand cat's fur is the colour of sand. It can hide by lying still.

It pounces on animals it wants to eat. Snakes are one of this cat's favourite meals.

OTHER DESERT ANIMALS

Sticker
page

Thorny lizard

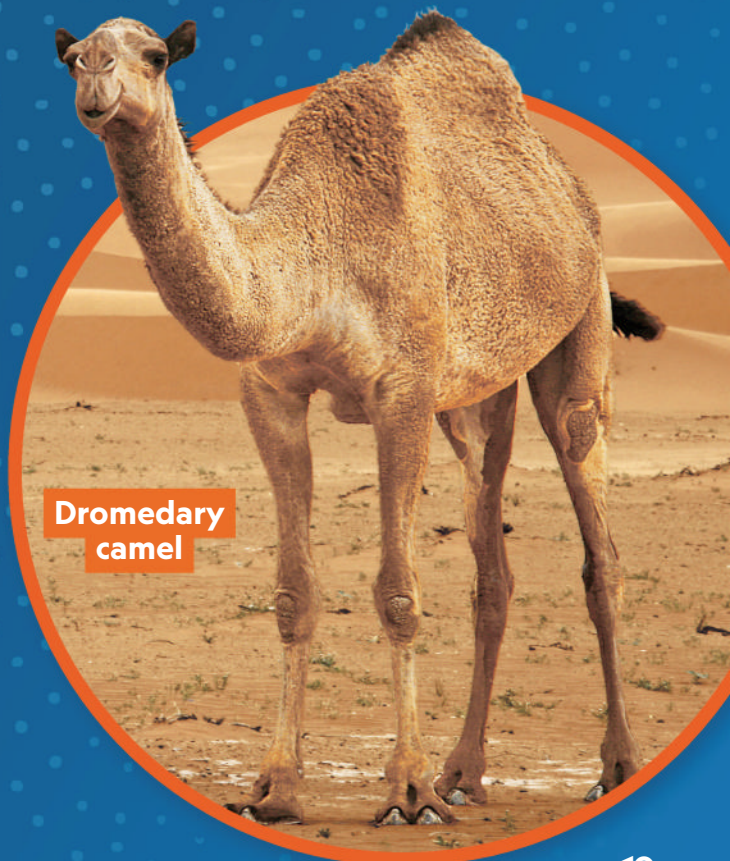

Here are a few other animals that live in deserts around the world.

Cactus wren

Black-tailed jackrabbit

Dromedary camel

Sticker
activity

Stick
another
desert
animal
here!

Bark
scorpion

MATCHING

SUMMER COLOURS

Bright flowers bloom in the summertime. Draw a line with your finger from a flower to an animal that is the same colour.

Frog

Bird

Next time you go outside, point out the colours of the flowers!

Seahorse

Lizard

Fish

Can you
name some
other colours
that are not
on these
pages?

Butterfly

A Bear Eats

1

These bears live in Southeast Asia.

A sun bear lives in the forest. It eats bees and honey. The bees make the honey inside trees.

2

Do you like to eat honey? What do you eat it with?

The bear sniffs to find the honey in the trees. Strong legs and sharp claws help it climb. Up, up, up it goes!

Honey

Sticker
page

Stick the
missing
tongue
in this bear's
mouth!

3

The hungry bear
uses its teeth to
bite into the tree.
Thick fur and skin
protect the bear
from the angry
bees' stings.

4

The bear's long
tongue searches
inside the tree.
It licks out bees
and sweet
honey. Yum!

Summer in the City!

The park is full of people having fun in the sun.

Tick off these things when you find them in the big picture.

Find the people doing yoga. Then copy their pose!

**Count all
the people
sitting on
benches.**

**Stick
some more
people in
the park.**

Find the people that are talking to each other. What do you think they are saying?

Hungry Dinosaur

Say my name:
"LES-em-SOR-us"

Big dinosaurs like *Lessemsaurus* ate big meals. It ate *a lot* of the plants you see it eating here. These plants are called cycads. (Say "SY-kads".)

FACTS

FOOD

Plants

SIZE

This diagram shows how big *Lessemsaurus* was.

Lessemsaurus

Five-year-old child

Did you know that dinosaurs were on Earth for about 160 million years?

This dinosaur's fossils have been found in South America.

What
plants do
YOU like
to eat?

WORLD CULTURE

Let's visit...

ARGENTINA!

**This large,
long country is in
South America.**

**It has big
mountains, warm
grasslands and
cold deserts.**

Argentina

**Speak
Spanish!**

**Goodbye in
Argentina is
¡Adiós!**

Can you try?

Say: "ah-dyohs"

Iguazú Falls

**Hundreds of
big, fast-moving
waterfalls flow
between the border
of Argentina
and Brazil.**

Tango is a dramatic dance from Argentina. Couples walk closely together. Then they lunge and spin!

Sticker page

Dance around the room with someone!

Sticker activity

Stick a baby capybara near to its mum.

Capybaras live near water in Argentina. They are the biggest rodents on Earth!

Handy Caves

Thousands of years ago, ancient people made drawings of their hands in a cave in Argentina. It is now known as the Cave of Hands!

Colourful hand prints
in the cave!

They
also painted
the animals
they hunted
- like these
guanacos.

Draw
around
your hand
on this cave
wall.

Draw
some little
patterns and
animals,
too.

Who has
the biggest
hands in your
family?

Sticker
page

Sticker Scene!

Stick some
wildlife
in this
picture!

There is a huge wild area in Argentina called Patagonia. Lots of animals live in the dry grasslands there.

Andean
puma

Tuco-
tucu

South
American
grey fox

Guanaco

Hog-nosed
skunk

Tuco-tucos
are little rodents
that live in
burrows. They are
eaten by pumas
and foxes!

LITTLE KIDS

1 What noise are these kids making?

Boing boing!

Bang bang!

Splish splash!

Clip clop!

2

B

C

D

Name these animals. Which have wings?

3

What shoes would you wear for indoor sports?

B

C

D

BIG QUIZ!

4

Point to the snake that looks like the letter S.

5

Can you spot the T-shirt that matches this one?

A

B

C

D

6

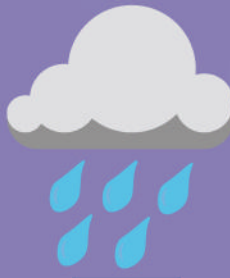

Which type of weather makes us feel hot?

Stormy

Snowy

Rainy

Sunny

Puffin Party

Puffins are a type of bird. They fly, but they also swim and dive for fish! Follow the instructions when you find the different birds in these pictures.

Flap your arms when you see a flying puffin.

.....

Tickle the tummy of the bird that is ready to eat.

.....

Circle the puffin that is landing on the ground.

.....

Tap twice when you see the swimming puffin.

.....

Wiggle your nose at the bird that is going to build a nest with sticks.
